Installation Instructions

Installation

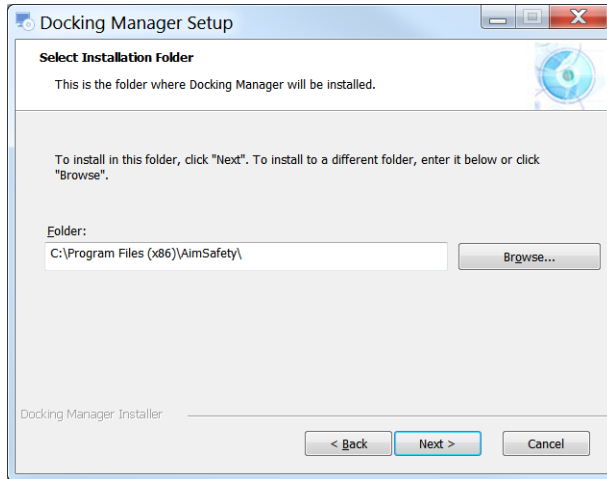

Download the software saving it in a place that you will remember.

Installing the new software version:

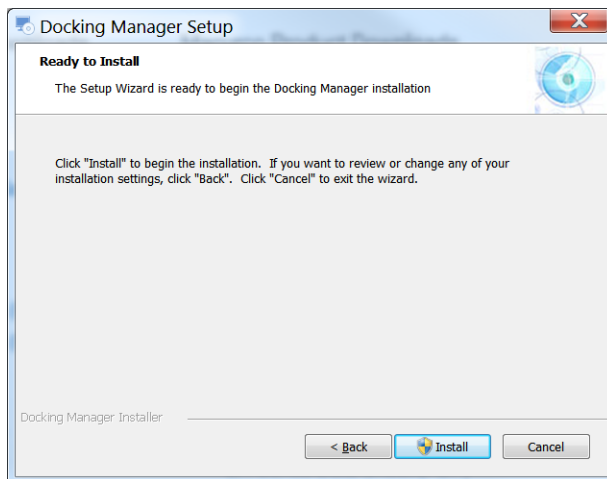

1. Navigate to the saved file.
2. Double-click the file to run the installer.
3. You may receive a security warning. Click **Run** or **Run Anyway** to continue with the installation.
4. The Docking Manager Setup wizard will start. Click **Next**.

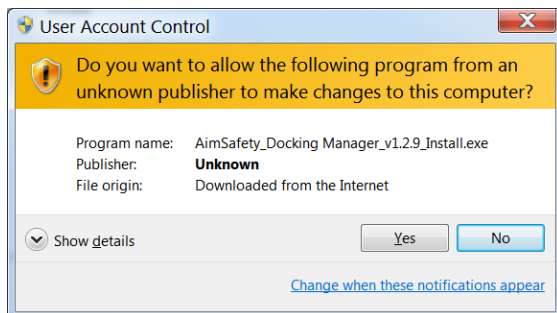

5. Now select the installation folder. The default folder is the best option for most people. Click **Next**.

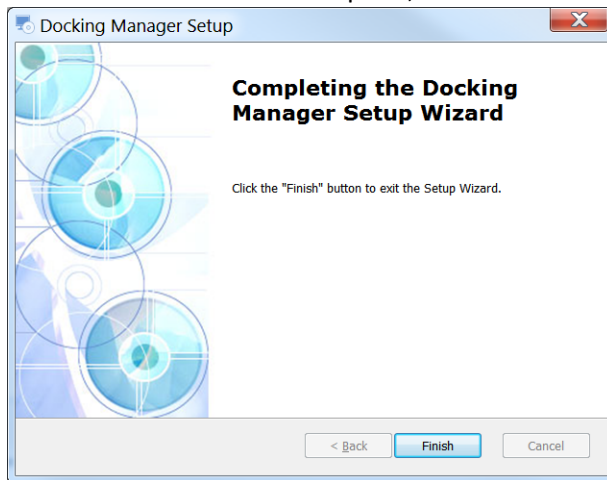

6. The installation is ready to begin. Click **Install**.

7. You may receive a warning. Click **Yes** to continue.

- When the installation is complete, click **Finish** to exit the Setup Wizard.
