

1
TXP Modbus
/Relay Board

SYSTEM OVERVIEW

Notes:

1. TXP-T40 Optional Modbus / Relay board must be spec'd in order to control external devices such as those shown above.
2. Relays are rated at 5 amps up to 250 VAC.
3. Example shows both low voltage and high voltage devices connected simultaneously. Please refer to the TXP-T40 instruction manual for more details.
4. Installer-provided relay/contactors shown
