

# CARBON DIOXIDE

Carbon Dioxide (CO<sub>2</sub>) is the primary greenhouse gas emitted through human activities. CO<sub>2</sub> is present in the atmosphere as part of the earth's natural cycle. Carbon Dioxide is a **colorless, odorless, incombustible** gas formed during respiration, combustion, and organic decomposition.

## Jonathon DeKam

### Applications Test Engineers

Macurco's September Employee Spotlight is our Applications Test Engineer, Jonathon DeKam!

Jonathon has been with Macurco for 1 year on October 4th. His favorite part of the job is that there are no two days that are the same. Some of his hobbies are lifting weights, biking, golfing, and watching sports. A goal in his future is to become a halfway respectable golfer.

Thank you for all you do, Jonnie. We appreciate you!
