

MACURCO

GAS DETECTION

PROPANE

Propane is a **three-carbon alkaline** that is produced as a by-product of two other processes, natural gas processing and petroleum refining. Propane is used as a fuel source for domestic, industrial, and transportation applications.

Propane is a combustible gas that can lead to an explosion with the right combination of oxygen/combustible gas/ignition source. Proper gas detection can alert people if there is a potentially hazardous environment.

A few weeks ago, Macurco Inc. presented our new booth at the AHR Expo in Atlanta, Georgia. Thank you to everyone who stopped by our new booth. It was a very successful tradeshow, and we had a wonderful time speaking with you all.

Next Month, Macurco will be exhibiting at ISC West, March 28th-31st in Las Vegas, NV. Stop by booth #15127 and speak with our team about your gas detection needs.

AimSafety (NO2) and (H2) Single-Gas Monitors

The AimSafety PM100 series consists of maintenance-free, disposable, portable single-gas monitors that protect workers by providing exposure detection for specific gases in hazardous environments. The PM100 operates continuously for two years, monitors ambient air conditions, and provides real-time gas concentrations on an easy-to-read LCD display.

February's product spotlight is the new Aimsafety Nitrogen Dioxide (NO2) and Hydrogen (H2) Single Gas Monitors.

We hope you had a great Valentine's Day from the Macurco Crew! We celebrated with croissants, fruit, and chocolate-covered strawberries!

Tracey Westendorf Administrative Assistant

Macurco's February Employee Spotlight is Tracey Westendorf, Macurco's Administrative Assistant.

Tracey has been with Macurco for almost nine years. Her favorite part of the job is the versatility of her tasks and working with the team for successful outcomes. Tracey is always cool, calm, and confident in her work and helps keep the building running and in tip-top shape. In the future, Tracey would like to take a family vacation to Canada.

Thank you for all you do, Tracey. We appreciate you!
